

**To the Editor:** [VOTE411.org](https://VOTE411.org) is a one-stop shop for election-related information that provides nonpartisan information to the public. On VOTE411, you can register to vote, see what's on your ballot, and see where your candidates stand on the issues. In order for us to be informed about candidates, we must hear from candidates themselves.

The League of Women Voters Henderson County calls upon local candidates to fill out this important guide on VOTE411 before it's too late. Every candidate running for office was invited and encouraged to participate. We thank those who have for making sure voters know where they stand. Early voting has started, but it's not too late for candidates to respond to VOTE411's voter guide and provide the information we need to cast our ballots.

VOTE411 is a project of the League of Women Voters US that serves millions of voters every election as a trusted source of objective and nonpartisan election information. Using VOTE411 before heading to the polls helps voters make informed decisions and gives everyone an equal voice in democracy. We call on candidates to let us know where they stand on the issues that matter to us by filling out the VOTE411 voter guide.

*Brenda J. Sherrer, President, League of Women Voters Henderson County*
