

Letter to the Editor: LWVHC Taking Action From Home

Because of the pandemic, the League of Women Voters was compelled to postpone our free, public spring programs on affordable housing, the census, nursing homes, the courts, and DEI (Diversity, Equity, and Inclusion). We also had to cancel voter registration events we hold every spring. All of these programs will be rescheduled for the coming year along with our fall candidate/election/registration events.

While essential, working community members have been keeping us safe, fed, learning, and healthy, many of us have been challenged to find meaningful activities to do from home. Never idle, the League continues work for fair redistricting and now in support of safe, secure, accessible voting. Our VOTE411.org website has nonpartisan candidate information for the June 23rd second primary. Our revised website, lwvhcnc.org, includes the most current voter information in North Carolina.

LWVHC is committed to providing nonpartisan information in Henderson County on topics that concern all community members. Visit our website and let us know your priority issues. And while you're at it, call and write your legislators to let them know as well!

Rachel Poller

President, League of Women Voters Henderson County
